POWERFUL YET ECONOMICAL

ALL-NEW 3.0L 4X4 SINGLE CAB

ISUZU
D-MAX
SUPER COMMONRAIL

More efficient. More economical.

The latest engine from Isuzu is extremely fuel efficient, as was dramatically proven in the Dura-Miles Challenge from Bangkok to KL where the D-Max covered an amazing 1501km with less than one full tank. Plus you save even more with low maintenance and parts costs.

The powerful 136ps engine.

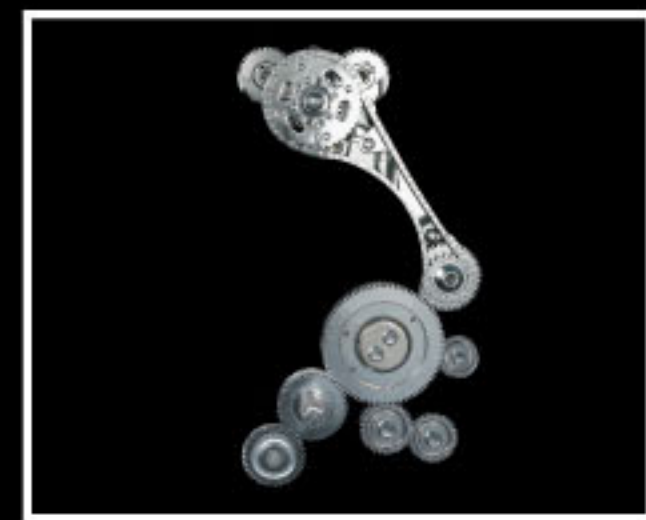

The latest Direct Injection Electronic Super Commonrail system enhances combustion to max potential, unleashing an awesome output of 136ps power. Achieves a maximum torque from 1200rpm, giving you a powerful drive even while carrying heavy loads.

Touch-on-the-Fly

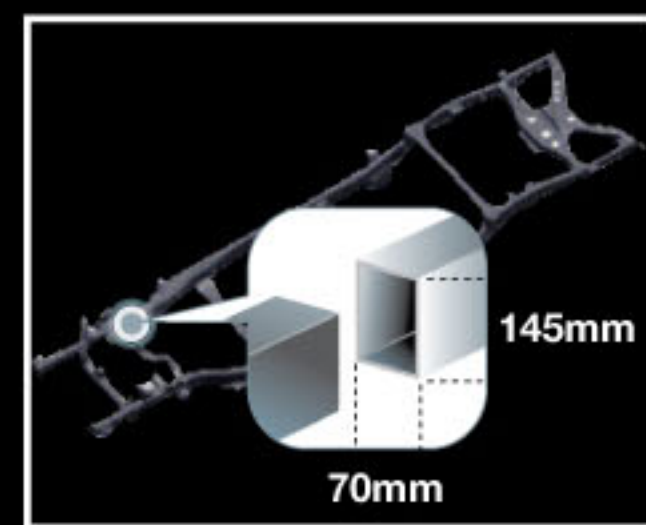

The first with convenient one-button switching from 2-wheel drive to 4-wheel drive and vice versa at speeds of up to 100km/h.

Timing Gear & Chain

Compared to the ordinary timing belt, the timing gear & chain is definitely longer lasting. It keeps the motion going without the possibility of snapping.

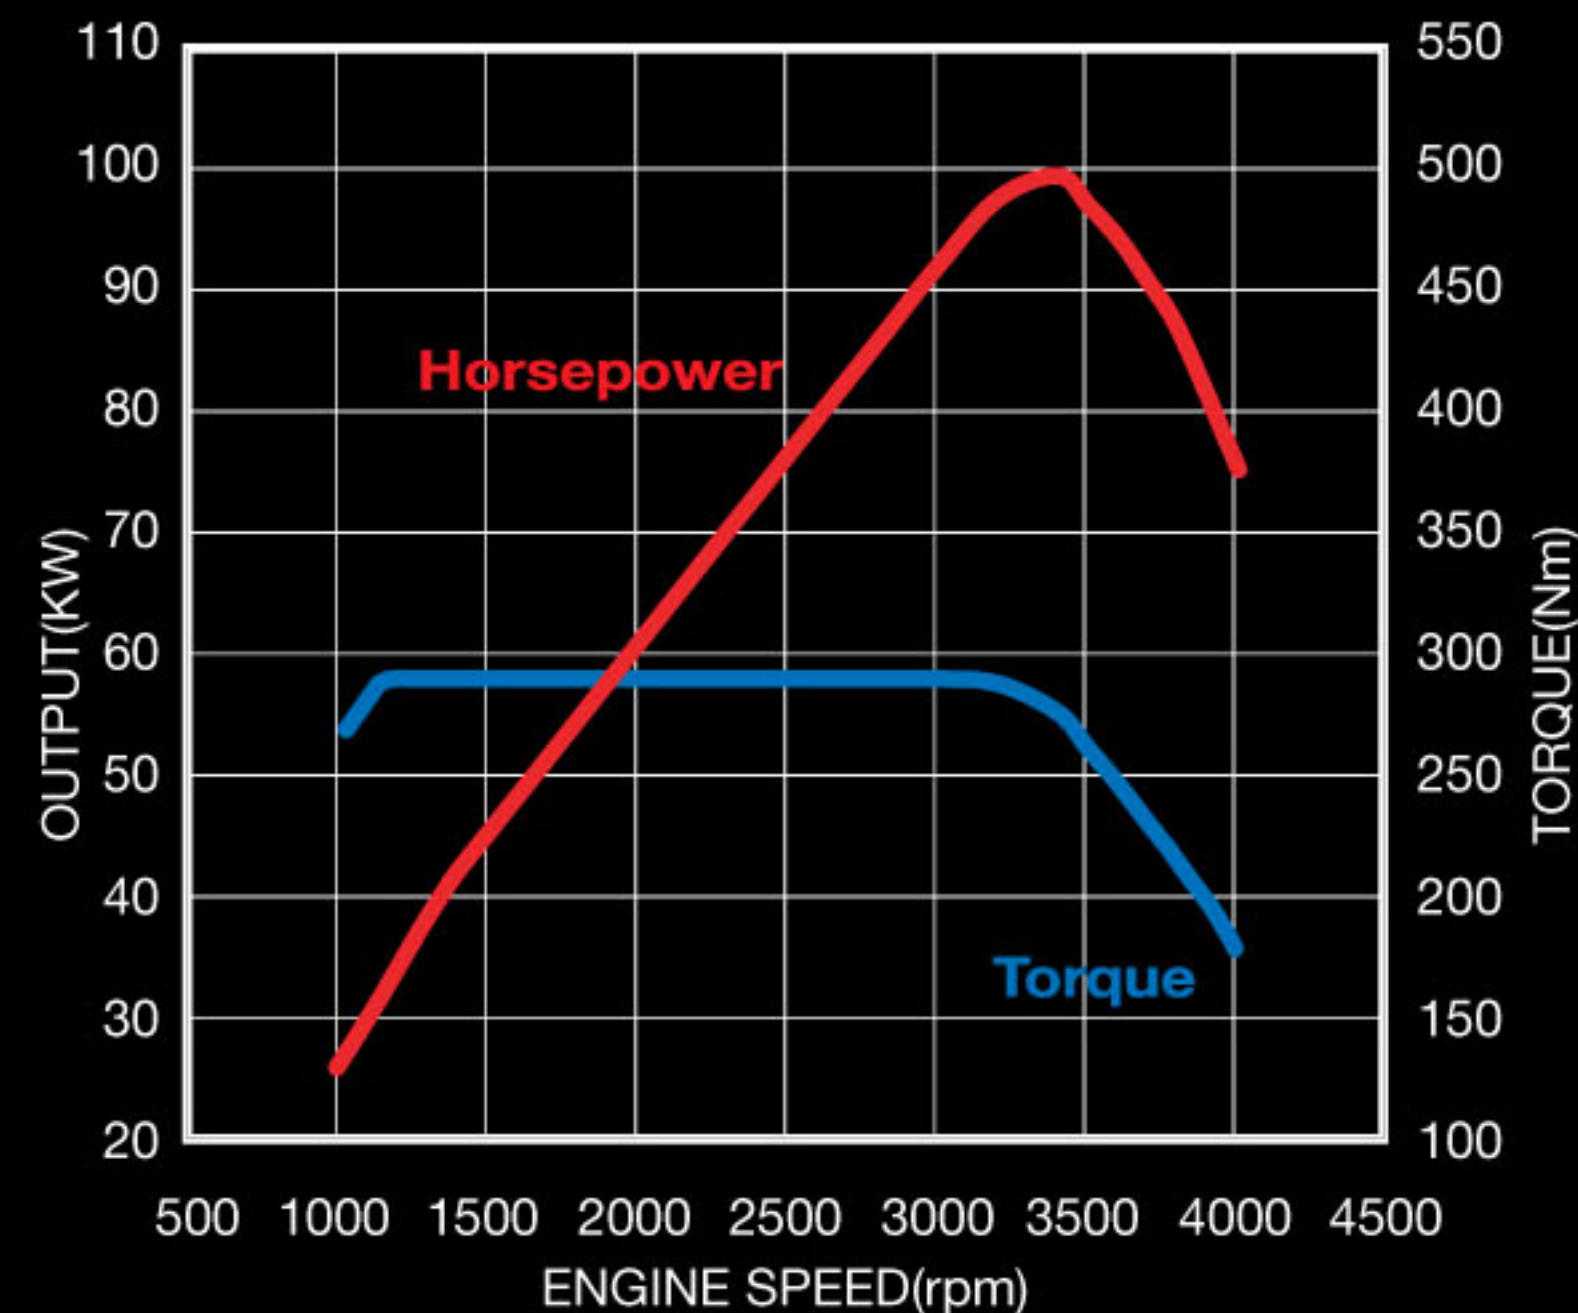

Reinforced Chassis

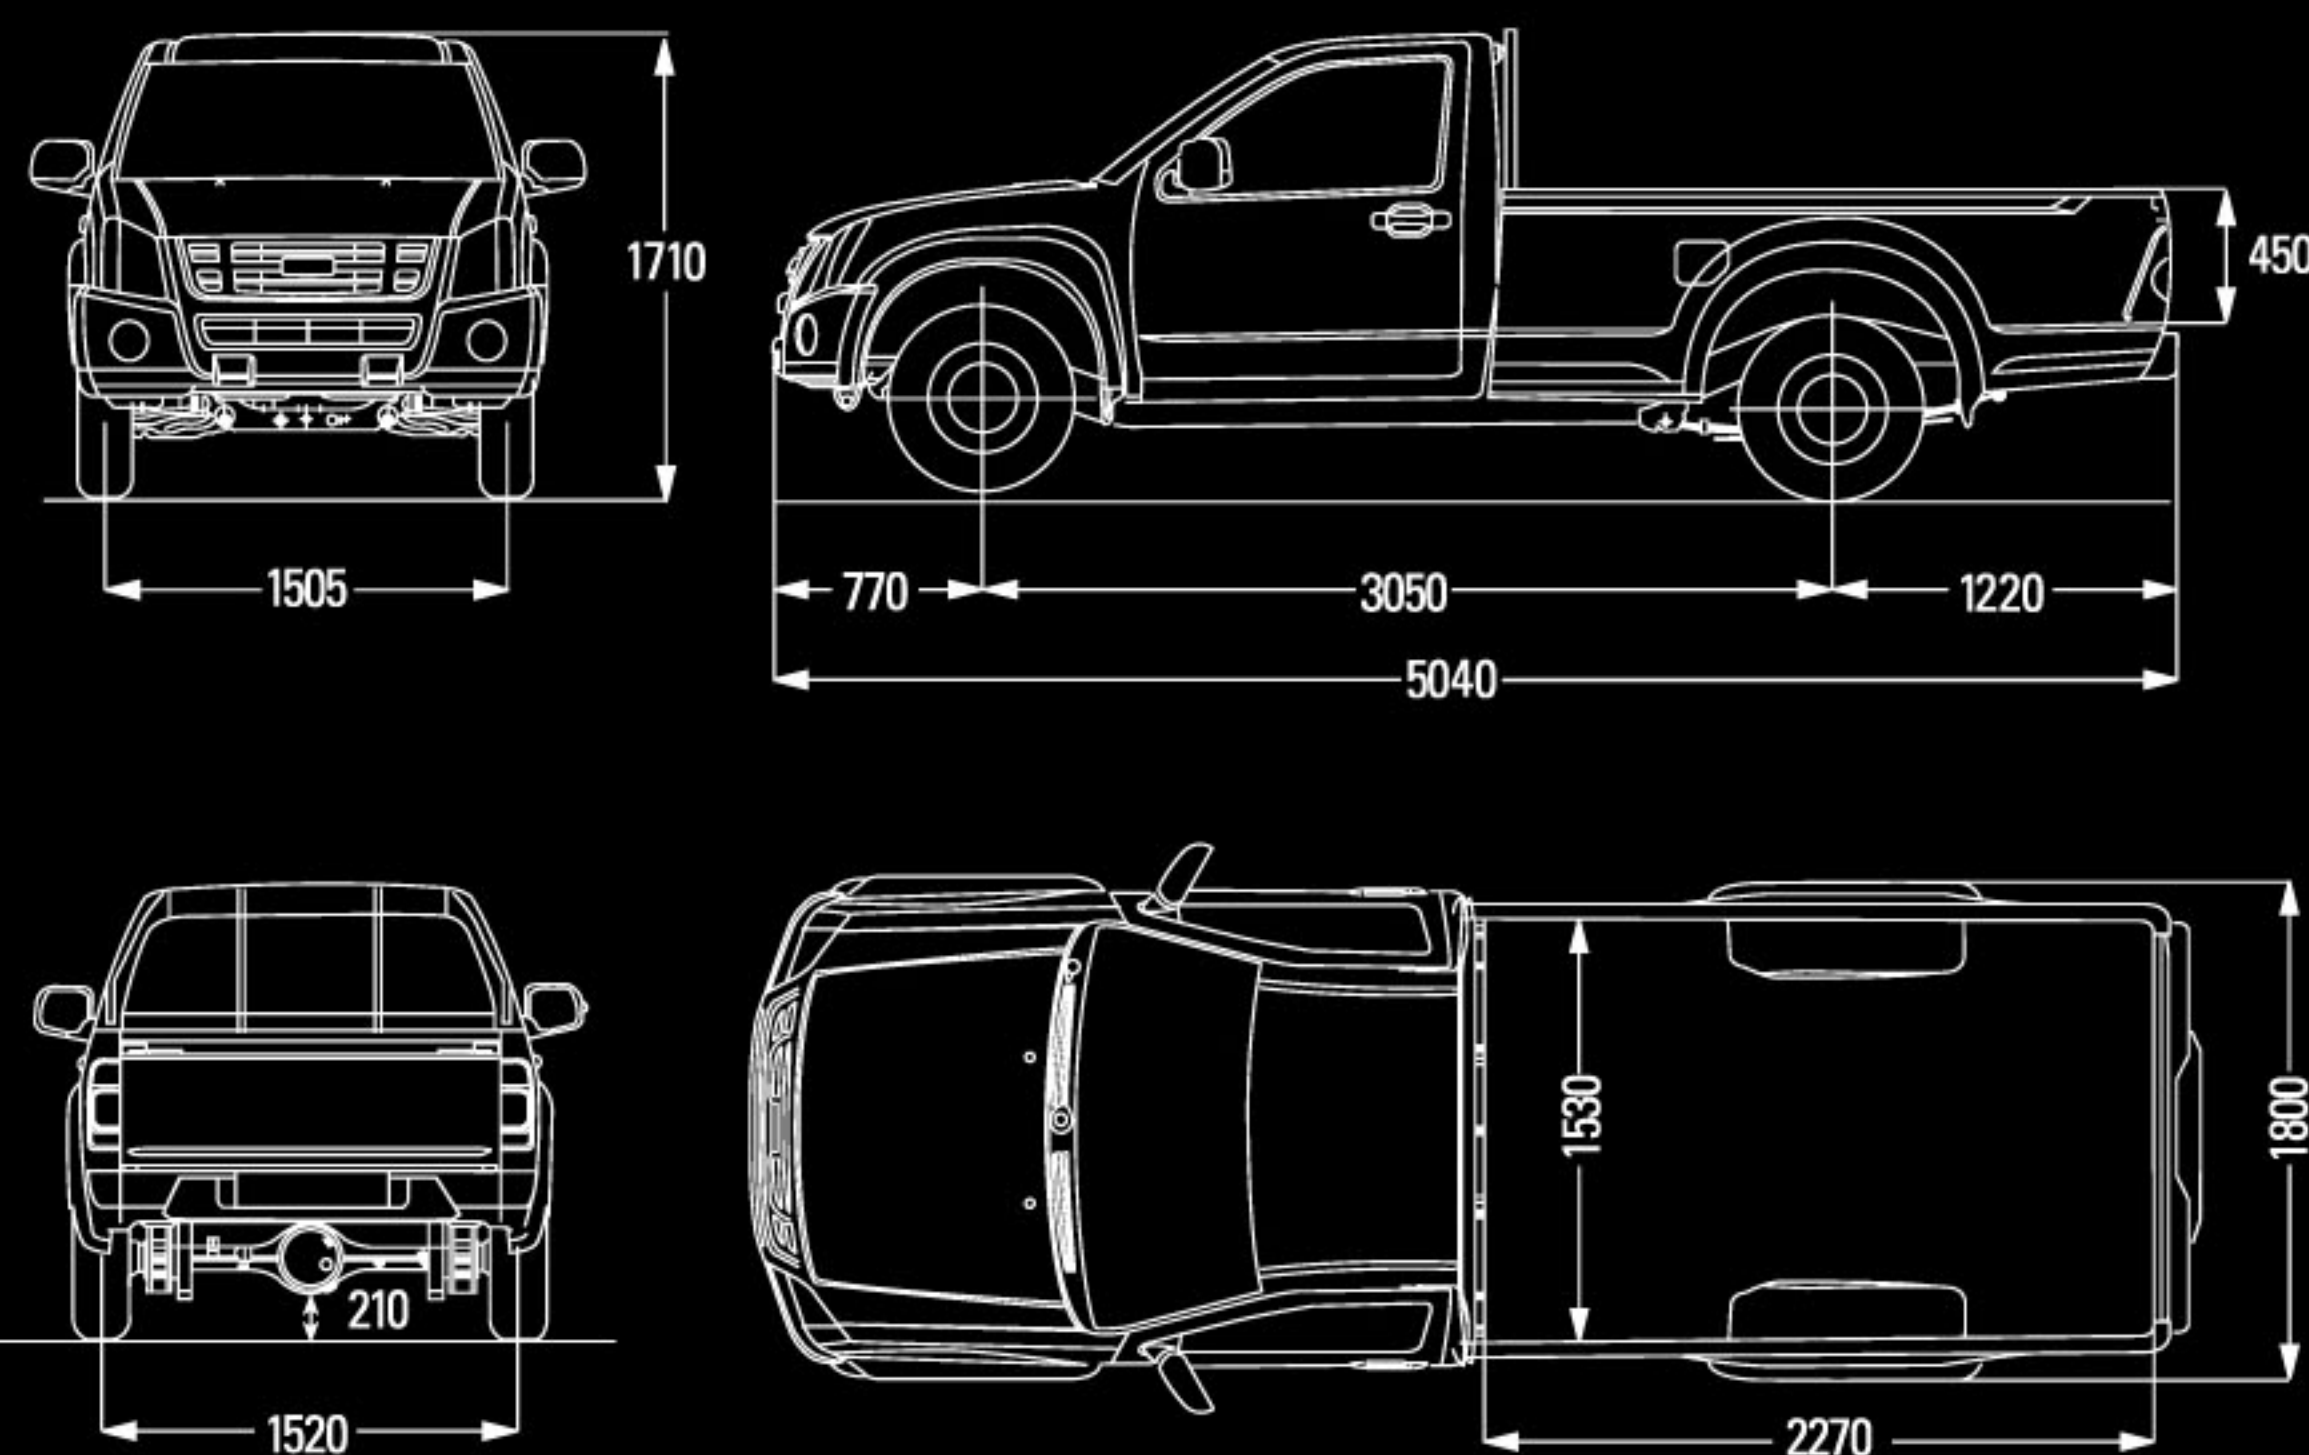

High-performance frame with larger side-members further increases safety and durability. Specially designed rear chassis cross member minimises torsional distortion.
